Who Should Attend

The training is for anyone wishing to progress within the school, so it is open to everyone, all levels, all disciplines, including if you do not want to become a teacher afterwards. Having a martial background is not necessary, however it will allow you to better appreciate the content of the training. Ideally, you supplement the training with regular practice between each weekend with a partner, study group or teacher.

What is the goal of this training

My goal is to train quality practitioners and take them to the highest level of practice so that they in turn could, if they wish, offer quality training to their students and thus grow the school.

How much does the training cost

The complete training for the 4 weekends (24h) is 350 € to be paid online at Himeikai. You also need a KoKoDo license available online if you are not already affiliated (70 €).

It is possible to do a trial weekend (No license required) at the price of 150€. At the end of the weekend, you will be able to access the full training by adding the missing €200 if you wish.

It is therefore necessary to count a maximum of 420 €
